FOREWORD

"What a piece of work is a man!
How noble in reason! How infinite in
faculties!"

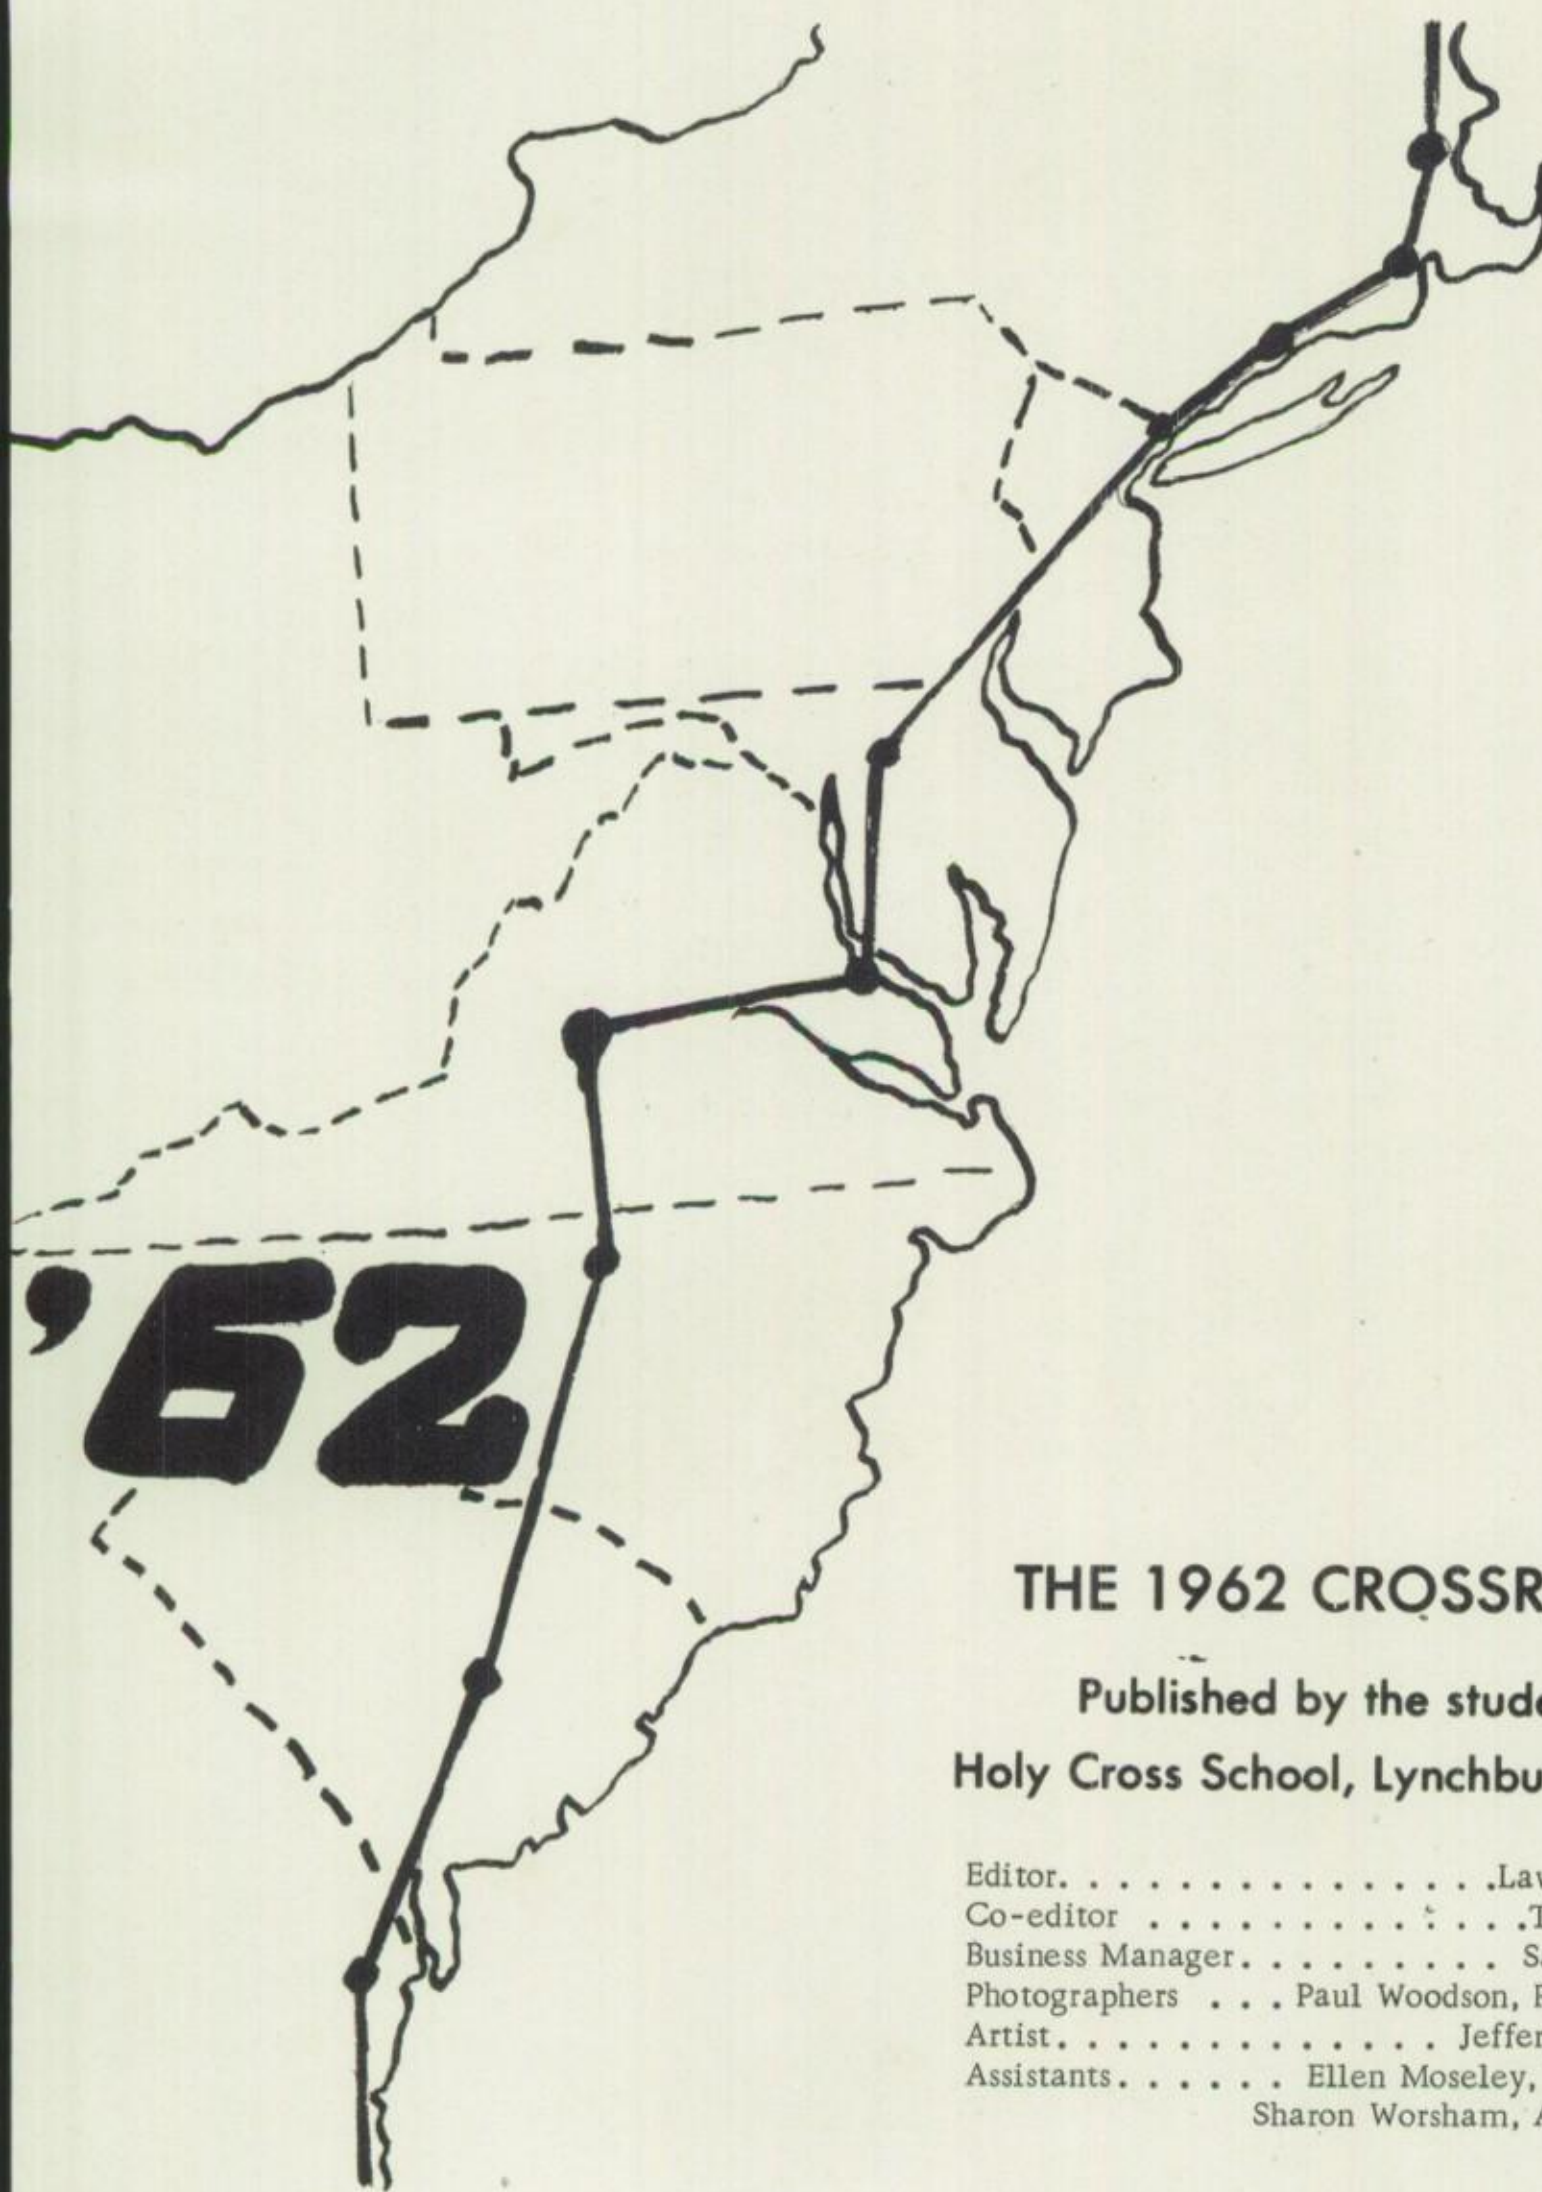

Within the walls of Holy Cross this
masterpiece of God grows from youth into
adulthood.

Under the guidance of a dedicated
faculty his spiritual, intellectual, social,
and physical faculties are developed.

We invite you, our readers, to view
with us this development as it is portrayed
in the pages of Crossroads 1962.

DEDICATION

Graduation marks for us, the class of '62, the Crossroads of our lives. At this great moment we gaze in memory at the path that we have trodden to reach this day.

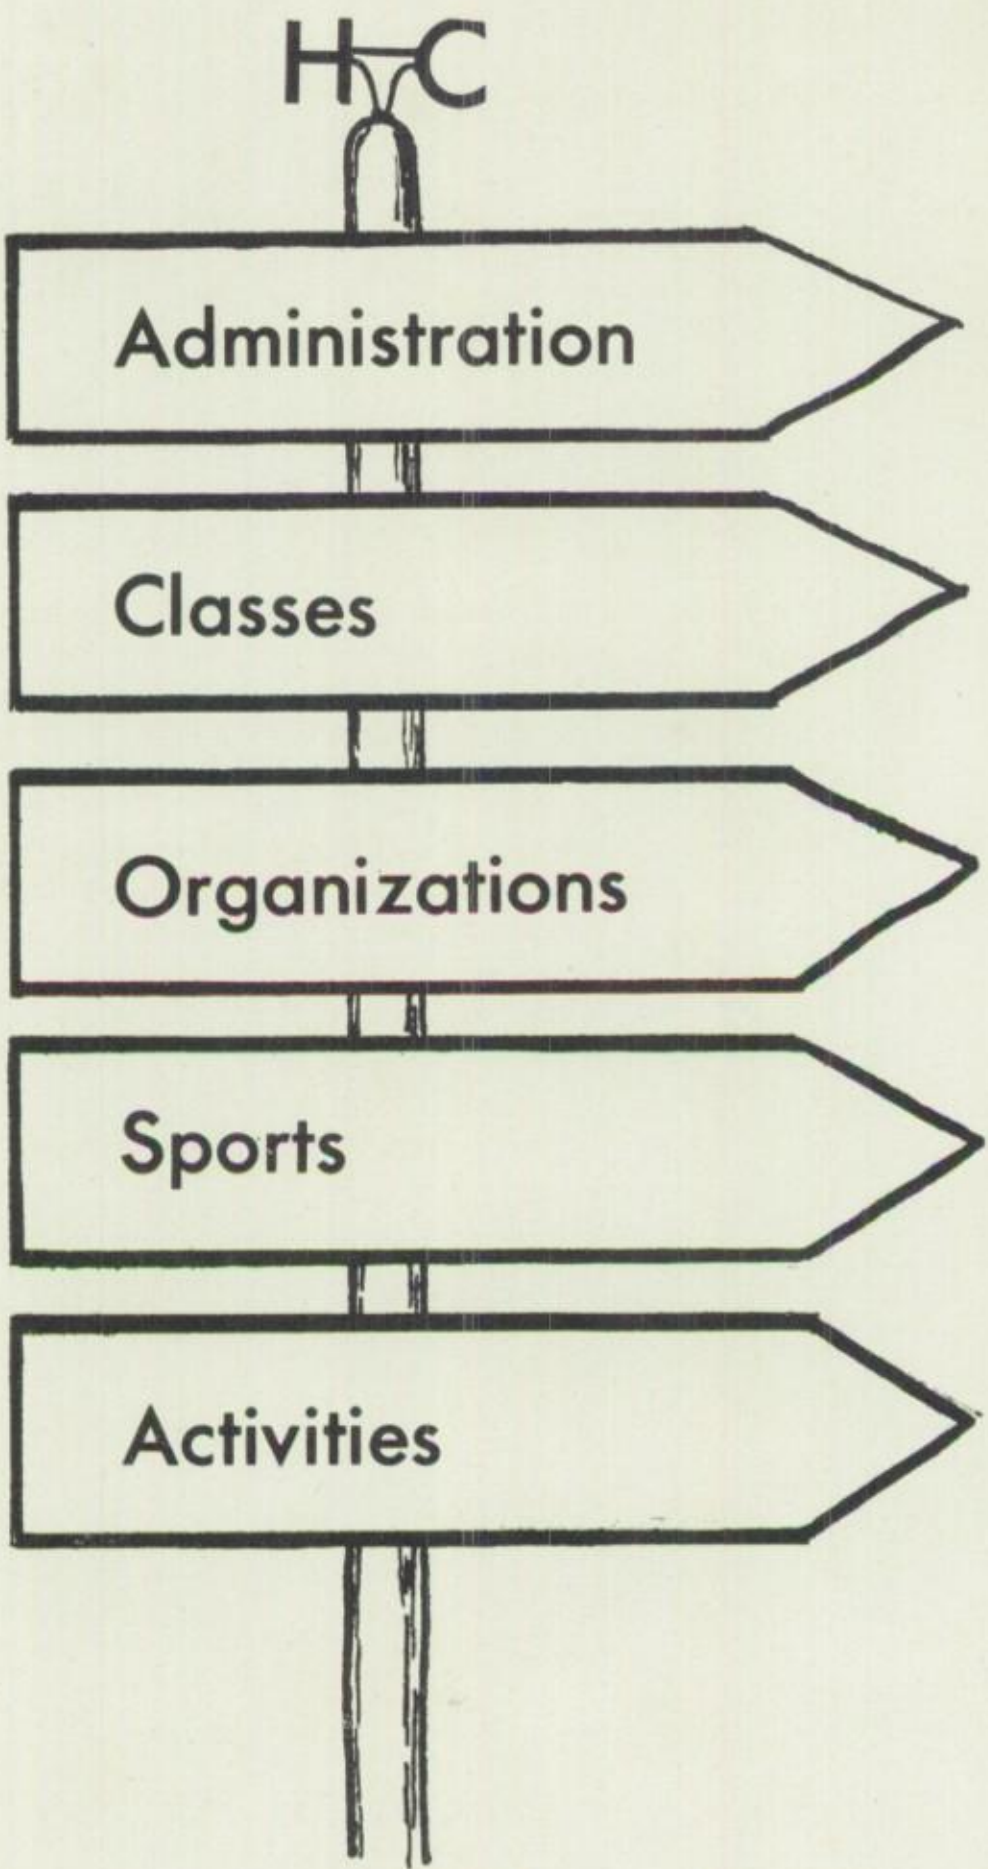

All along this path beside each of us walk two figures: two figures who placed our baby feet on the road of life, two figures who guided our tottering steps, whose hands were ever there to steady us, whose voice was ever there to direct, whose love was ever there to strengthen and sustain.

These two figures stand beside us today proud and encouraging. Their inspiration will accompany us along the longer road yet to be trodden - the road that leads to eternal life.

To them, our beloved parents, we dedicate -
CROSSROADS 1962.

THE MOON...and beyond!

Bright, new horizons await today's students . . . new technologies . . . new medicines . . . even the moon and whatever lies beyond.

How far today's students go in this space age depends partly on their imagination but primarily on their training. Conquering new horizons will demand more of today's graduates

—more knowledge, more skills, more training and more specialization.

Our Free Enterprise system, with its high living standards, gives everyone an opportunity to "shoot for the moon" in any field. Whether or not our target is reached depends on how well trained we are to launch ourselves.
